

VERNE GLOBAL

Ready for your next job? Check us out at www.VerneGlobal.com

Iceland is the home of supernatural power. We are here to help our customers change the world. Not exhaust it. Together we can achieve the impossible. Let's get started!

Verne Global Data Center is looking for a Senior Project Director to join a team dedicated to build and operate world class and industry leading data centers. We first opened our campus doors in 2012 and quickly established what has become Iceland's thriving data center industry. We've been expanding ever since and were acquired in 2021 by D9 Infrastructure, enabling us to accelerate even faster. We are looking for an experienced Project Director to lead continuous expansion and internal improvement projects.

Areas of work and responsibilities include:

- Manage the construction, commissioning, and turnover of a Datacenter within the Verne campus
- Project Management and/or participation of diverse ad-hoc interdisciplinary infrastructure improvement projects
- Project preparation and analysis
- Supervise preparation and follow-up of cost estimates and schedules
- Negotiate vendor and contractor contracts and purchase orders as needed
- Develop cost savings solutions and identify project savings/underruns early
- Time management, cost and quality control
- Misc. project reporting incl. upward executive and information sharing
- Promote and model an attitude of continuous improvement, partnership, and teamwork in behaviors and communications
- Support and lead an industry leading safety culture and program

Requirements for employees:

- Chartered engineer
- Project Management experience
- Work experience in construction management
- Knowledge of electrical and mechanical systems
- Knowledge of industry standards, building codes and safety standards
- Knowledge of capital budget management
- Negotiation skills and experience providing solutions to problem

One thing all successful candidates have in common is a passion to use technology, new concepts and new ideas to solve complicated problems.

In addition to standard benefits, we offer free onsite lunches and have a gym and employee entertainment room. We also encourage each employee to spend 8 hours a year doing volunteer work on company paid time.

Verne Global does not discriminate based on race, gender, disability, religion, or sexual orientation. We encourage all genders to apply for this role and we believe diversity makes teams better.

Application with CV in English, must be submitted on or before 31 December by sending an email to hr@verneglobal.com
