

EASY SHIP TO ICELAND AND VAT RECOVERY

1 Shipping

Arrangements are made to ship and deliver your computers and network equipment to the Verne Global data center from any part of the world, using e.g: UPS, DHL, FedEx, etc.

2 Pay VAT

Computers and network kit arrive in Iceland and customs determines the Value Added Tax (VAT). Your VAT in Iceland is assessed, paid and reclaimed. VAT can be paid through your distributor. Always specify 'Delivered Duty Paid' or "DDP".

VAT Recovery

Verne Global will introduce you to trusted partners who will guide you through the VAT recovery process. This typically has a minor fee depending on complexity of the recovery process.

4

Equipment Installed

Verne Global will have your space and power waiting for your equipment. Installation is by customer preference. Your equipment can be installed by your own team, or your local vendors/partners.

We look forward to receiving your equipment at the Verne Global campus. If you have any questions regarding shipping or the VAT process, please do not hesitate to contact our team.
